Note: This FAQ is for users of Stata 7. It is not relevant for more recent versions.

## Stata 7: How can I download and install the StataQuest menu additions?

Title     Stata 7: Downloading and installing StataQuest to Stata 7  
 Author    Lisa Gilmore, StataCorp  
 Date      March 2001

To download and install the StataQuest menu additions to Stata, enter these commands in Stata:

```
. net cd http://www.stata.com
. net cd quest7
. net install quest1
. net install quest2
. net install quest3
```

Here is the output from entering these commands:

```
. net cd http://www.stata.com
-----
http://www.stata.com/
STB and other user-written additions for use with Stata
-----

Welcome to Stata Corporation.

Below we provide additions to Stata that were published in the STB or
mentioned on Statalist. These are NOT THE OFFICIAL UPDATES; you fetch and
install the official updates by typing -update-.

DIRECTORIES you could -net cd- to:
  stb          materials published in the Stata Technical Bulletin
  users       materials by various people including StataCorp employees
  meetings    Stata user group meetings
  quest7      StataQuest additions for Stata 7 (Windows, Mac, and Unix)
  quest       StataQuest additions for Stata 6 (Windows and Mac only)
  links       other locations providing additions to Stata
-----

. net cd quest7
-----
http://www.stata.com/quest7/
StataQuest addition for Stata 7
-----

StataQuest provides a pull-down menu system for accessing the basic features
of Stata. StataQuest is especially popular with students and student labs.
You can add the StataQuest features to your copy of Stata by installing the
three packages below. They will not interfere with Stata's normal operation.

When you want to use Stata in StataQuest mode, type quest on.
When you want to stop using StataQuest mode, type quest off.

If you are using Stata 6, please -net link- to the appropriate location.

PLACES you could -net link- to:
  quest6      StataQuest additions for Stata 6

PACKAGES you could -net describe-:
  quest1     StataQuest additions (part 1 of 3)
  quest2     StataQuest additions (part 2 of 3)
  quest3     StataQuest additions (part 3 of 3)
-----

. net install quest1
. net install quest2
. net install quest3
```

To start StataQuest, type **quest on**. Likewise, type **quest off** to shut StataQuest off.
