Submission

Assignment should be submitted through Turnitin within eCampus. Turnitin is an online database system designed to help instructors **detect plagiarism**, track citations, facilitate peer reviews, and provide paperless grading markup in written assignments. Students should develop this assignment **individually**.

General information

Explain in detail the following diagram presented in the lecture about international migration. This figure is a summary of a proposal developed by the professor to estimate models of international and internal migration in the United States. Your grade for this assignment will be determined by the use of **several topics presented throughout the whole course** with a focus on the **quality of your analysis**, and the elaboration of **coherent interpretations**. This assignment should be seen as a document that tells a **coherent story about a subject**. You should have at least: (1) an introduction explaining the main purpose of your analysis; (2) explanation of migration theories that would be useful to estimate migration models; (3) research questions that will be addressed by the models; and (4) specificities of the proposed models in terms of data sources, variables, and steps of estimation. The document should be on US Letter paper size, one-inch margins, Arial font, size 11, 1.5 line spacing, and a **maximum of 500 words**.
